1. There's an issue with the ACV Gummies page.

2. For the Cereal page, Can we move the header up a fair bit. the current white line is sitting on the border.

3. Also, can we program all the add to cart button to lead directly to the cart page? cos right now it leads to the usual product page, takes a step more usually a lot of people would have dropped out there if it doesnt go directly to the cart page with the registered items 4. As Christine has mentioned before for the cereal page, there's an error, would need tech's help to amend. On the figma, it has already been fixed, so all they

 also, the facebook link is not linked to the new FB page: https://www.facebook.com/Poop-Like-A-Champion-PLAC-110738014688140

Mobile Site

6. (ACV Gummies) i am not sure if this was the design for mobile site. and the words are comparatively smaller, hard to read also

7. the headers are really small, see if we can make them larger and there's this exceptionally large empty space on top. we can move up everything

8. can we move the blue borders portion upwards to be touching at the end of the image?

9. The sub header for What Our Customers Say is relatively small. Let's make it bigger, as well as for the testimonials. It's ok for the name to be small, but be good if we can enlarge the testimonials and cover more of the bubble.

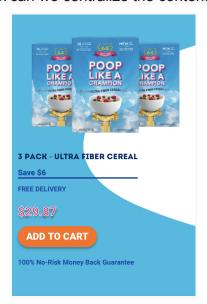

10. can we hide this portion on mobile only? cos it's too small and difficult to read/see

12. for the cereal page (mobile): make the sub header "What Our Customers Say" Bigger. Has to be bigger than the 5 stars.

13. can we centralize the content below the cereal boxes?

14. Single word on the last line of the paragraph, can we move the word up to the previous line?
